SOME HINTS FOR BUILDERS

Great Care Should Be Taken in Selection of the Most Substantial Roofing Material.

If you were without preparation or plan, rudely placed in a wilderness, your first thought would be of food supply and your next of shelter. For these are the two most vital necessities of mankind. It is therefore natural that the best thought, and study are put upon these two essentials.

More forward steps have been taken in the building industry in the past fifteen years, as regards comfort, service and architectural beauty than in the fifty years previous.

Only in recent years has the handling of cement in building work been understood properly, and progress is still constantly being made with it. Modern hotels and office buildings are being equipped with sheet metal moldings and steel veneered doors. Nearly every important change in building construction is away from the fire hazard of wood.

One of the most significant developments of recent years is the crushed slate surfaced asphalt shingle which is, on new construction and old, rapidly supplanting the wooden article. There are many reasons for this. The slate surfaced shingles add beauty to any building—in fact, there is really no comparison from an architectural standpoint. Crushed slate of pleasing tints of red or green, is employed as a surfacing. The shingles are uniformly eight inches wide and are exposed four inches to the weather. No painting is necessary as the red or green crushed slate is natural and therefore cannot fade.

The purchaser, however, should guard himself against buying a slate surfaced shingle that is not guaranteed by a reliable and responsible manufacturer. There are so many kinds of roofing and shingles on the market today each claiming to be the best that it becomes necessary for the buyer to get some satisfactory assurance that the roofing or shingles are represented honestly.

What does it avail a woman to have troubles if she can't tell them?

Be Warned in Time

Do you have backache? Are you tired and worn out? Feel dizzy, nervous and depressed? Are the kidney secretions irregular? Highly colored? Contain sediment? Likely your kidneys are at fault. Weak kidneys give warning of distress. Heed the warning; don't delay—Use a tested kidney remedy. None so well recommended as Doan's Kidney Pills. None so universally successful.

An Oklahoma Case

"Every one tells me I'm a case." Mrs. T. Thompson, 40 W. Washington Ave., Oklahoma City, Okla., says: "My kidneys were so badly congested I felt stiff and lame and could hardly do my housework. Doan's Kidney Pills strengthened my kidneys and relieved the terrible pains in my back. I have felt a great deal better in every way since."

Paxtine

A Soluble Antiseptic Powder to be dissolved in water as needed For Douches

In the local treatment of woman's ailments, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. "Women who have been relieved say it is 'worth its weight in gold.'" At druggists, 50c. large box or by mail. Sample free. The Paxton Toilet Co., Boston, Mass.

GERMANY CHANGES SUBMARINE POLICY

NEXT NOTE WILL OFFER FULL SATISFACTION TO THE UNITED STATES.

PASSENGER SHIPS IMMUNE

And All Merchant Vessels To Be Warned Before Attack.—German Troops Occupy Brest-Litovsk.

Washington.—Two important developments in the relations between the United States and Germany further reduced the tenacity of the situation and were taken to foreshadow a declaration from Berlin on the subject of submarine warfare which would eliminate that source of discord between the two countries.

Count Von Bernstorff, the German ambassador, called upon Secretary Lansing and informed him that the statement presented by direction of the Berlin foreign office, saying there was no intent to cause loss of American lives when the White Star liner Arabic was destroyed, was intended to imply that German submarine commanders had been ordered to attack no more merchantmen without warning.

Ambassador Gerard, reporting from Berlin the substance of a conference with Foreign Minister Von Jacow, confirmed the Associated Press dispatches that Germany even before the sinking of the Arabic had adopted a policy designed to settle completely the whole submarine problem.

Crisis Believed Past.

The more hopeful officials thought the crisis passed and inferred the views which Ambassador Von Bernstorff had been urging upon Berlin ever since the sinking of the Lusitania had prevailed with the support of the liberals in Germany who have been opposing the anti-American policy of the conservatives.

One fact was outstanding in the whole situation. It was that further communication is coming from Germany outlining a policy which is expected to be satisfactory to the United States. It is understood Germany will announce a suspension of her submarine warfare on passenger-carrying ships and that submarine commanders will be instructed not to sink any merchantmen without warning, pending a diplomatic discussion of a proposal for a modus vivendi for relaxation of British blockade against neutral commerce.

Germans Occupy Another Fort.

London.—Brest-Litovsk, the main Russian fortress and concentration center for the Bug river line of defense, was occupied by the Austro-Germans.

The Germans are now in possession of the whole line of railway from Chelm to Bialystok. The Russians having already evacuated the latter city, the lesser fortresses of Grodno and Vilna are now the only strongly defended positions remaining in the hands of the Russians. Both these are being approached by the Germans and probably will be given up when they have fulfilled their purpose of facilitating the retreat of the Russian armies.

ALLIES MONEY ABOUT LIKE VILLA'S

Sovereigns Reach Lowest Value Since They Have Been Coined.

New York.—The English pound sterling is worth less in American money than at any other time since the British mint began to coin it in 1817, when George IV. was prince regent of England.

In a thoroughly demoralized foreign exchange market its value dropped to \$4.62, nearly 5 per cent. or 23 cents below normal.

German money alone stemmed the torrent of downward rates and registered an increase value, reichmarks going to 81%, the highest point touched since exchange values started down more than two weeks ago. The franc of France and the lire of Italy followed the course blazed by Sterling. Francs reached 5.36 and liras 6.47%.

More Border Disorders.

Corpus Christi, Texas.—Mexican bandits and American peace officers fought in a public road leading into Pinar, Brooks county, and one of four armed Mexicans was mortally wounded through the head. None of the Americans were hurt. The three unhurt Mexicans escaped and are being pursued by a posse headed by Sheriff Maupin. There are only five soldiers stationed here, but this incident has caused local authorities to ask for more.

EASTMAN CO. IS A MONOPOLY

COURT HOLDS BUYING OUT COMPETITORS VIOLATES LAW.

Kodak Firm Given Until November 1 to Act; Huge Profits Shown to Have Resulted From Merger.

Buffalo, N. Y.—The Eastman Kodak Co. of Rochester is a monopoly in restraint of trade in violation of the Sherman anti-trust law, according to a decision handed down here by Judge John K. Hazel of the United States district court. The decision grants the defendant company an opportunity to present a plan "for the abrogation of the illegal monopoly" on the first day of the November term.

Judge Hazel in his opinion stated that while it appeared that no irreparable hardship would result from a separation of the present business into two or more separate companies, it was not at this time intended to indicate either a dissolution, division or reorganization.

It no doubt is possible, he said, that an adequate measure of relief might result from enjoining the unfair practices of the terms of sale agreement and from a separation of the business side, but the defendant should have an opportunity to present the court on the first day of the 1915 November term a plan for the abrogation of the illegal monopoly, unduly and unreasonably restraining interstate trade and commerce; or if an appeal from this interlocutory decree is taken to the supreme court and this decision is affirmed, such plan is to be presented within sixty days from the filing of the mandate.

FRENCH BORROW \$20,000,000

And Allies Are Planning Another Enormous Joint Loan.

New York.—Announcement is made by Brown Bros. & Company, that arrangements for a \$20,000,000 French commercial export credit have been completed and the credit issued.

The purpose of the credit is to enable American exporters to be paid in dollars in the United States, eliminating any risk of exchange and thus facilitating our exports. It will also enable French buyers of American merchandise and other commodities who have found it difficult owing to extraordinary conditions now prevailing to obtain exchange with which to settle their accounts with American merchants.

Five British financiers, not three as originally reported, probably will represent Great Britain in arranging a joint credit here to meet bills for munitions and other supplies due American exporters, according to advisers said to have been received by New York financiers.

Haiti Gets Her Orders.

Washington.—Turbulent Haiti's new government has been asked by the United States to approve a convention under which for ten years the American government would administer the finances and supervise the policing of the island republic and stop revolutions.

A draft of the proposal is before the Haitian congress, sitting at Port au Prince, where American marines have been maintaining order since the recent killing of President Guillaume by revolutionists.

While the diplomatic branch of the United States government is working out a plan for future peace in Haiti's domestic life and foreign relations, the navy department is proceeding with preparation for an extended stay of its marines on the island. Rear Admiral Caperton, in command of the forces now occupying not only the capital but most of the principal towns and strategic points, has the situation well in hand with something over two thousand marines and blue jackets. He is to be reinforced immediately by the armored cruiser Tennessee.

F-4 FINALLY RECOVERED

LOST SUBMARINE RAISED AFTER FIVE MONTHS BY USE OF PONTOONS.

NOW IN HONOLULU HARBOR

Ship With 22 Bodies Sunk Without Warning on March 2, and 5. All On Board Were Lost.

Honolulu.—The United States submarine F-4, submerged outside the harbor here since March 25 last, was refloated and towed to the quarantine station in Honolulu bay.

Although the F-4 has been brought into the harbor the wreck is still submerged to a depth of six feet. Nothing has been divulged by the naval officials regarding conditions, if known inside the vessel.

The F-4, commanded by Lieut. Alfred L. Ede and with a crew of twenty-one men, went to the bottom off the harbor of Honolulu March 25, 1915, during the maneuvers of the "D" squadron. She was located two days later and diver John Agraz of the navy descended 215 feet, establishing a new world's record in an effort to facilitate the work of bringing her to the surface.

Her crew it was said might have been alive at this time but attempts at rescue failed and on March 30 Rear Admiral C. R. T. Moore, commanding the Honolulu naval station reported that the F-4 lay in 260 feet of water and would have to be raised by pontoons.

Secretary Daniels announced that the boat would be raised at any cost in order to determine the cause of the accident and diving apparatus and divers were sent out, leaving San Francisco April 6 on the cruiser Maryland.

2 NEGROES ARE BURNED AT STAKE

Mob at Sulphur Springs, Texas, Revenges Death of Deputy Sheriff.

Sulphur Springs, Texas.—In a fight with an armed posse near here, Joe Richmond was shot and killed and his brother, King Richmond, both negroes, was seriously wounded, and later the body of the dead negro was burned at the stake with his wounded brother in Buford park in Sulphur Springs. The negroes had shot and killed Deputy Sheriff Nathan A. Flippen and probably wounded Sheriff J. B. Butler.

Sheriff Butler and Deputy Flippen had started to arrest King Richmond, at a negro settlement nine miles south of here, on a minor charge when suddenly and unexpectedly both negroes opened fire killing Flippen instantly. Butler sustained several bullet wounds after which the negroes boat him over the head and his condition is precarious.

The news spread rapidly and within a short time hundreds of armed men were scouring the country, searching for the Richmond negroes. They were surrounded in a wood and in a fight with a posse, Joe Richmond was killed and his brother seriously wounded. None of the members of the posse were hurt.

POWDER MILLS ARE BLOWN UP

Were Working On Big Contracts For Europe.

Acton, Mass.—With a shock that was felt within a radius of forty miles the glazing mill of the American Powder Co., which, since the outbreak of the European war, has been working to its capacity, blew up. So far as known nobody was killed.

The police of this town and Maynard expressed the belief that the explosion had been caused with intent to cripple the plant.

An official of the company pointed out that the glazing mill, where the powder enters upon its last stages of manufacture, is the only part of the plant whose loss at this time would stop the output. Provision is made for the occasional explosions that occur by having duplicate parts of machinery in readiness but the only other glazing mills in the plant here was destroyed by lightning a little more than a month ago.

Two Killed in Delaware.

Wilmington, Del.—Two workmen were instantly killed and considerable damage was done to property by an explosion of two black powder mills of the DuPont Powder Company in the Upper Bagley yards, near here.

The cause of the explosion has not been determined but officials say it probably was due to a spark or to grit in the powder.

Another Ship Load of Gold.

New York.—Nearly \$20,000,000 in gold and securities worth \$25,000,000, the second large shipment sent from London to strengthen British credit in this country, arrived here on a special train of steel cars guarded by thirty-eight men. The shipment came direct by rail from Halifax, N. S., to which port it was conveyed by a British warship conveyed by smaller craft. On the way to New York the train was preceded by a pilot engine and car.

CALOMEL WHEN BILIOUS? NO! STOP! ACTS LIKE DYNAMITE ON LIVER

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Doesn't Make You Sick!

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a
